P D O T H R E A D S

Advanced Skin Rejuvenation that stimulates your collagen to create a natural result to tighten, thicken and improve the skin. This treatment is perfect for those that do not want dermal filler and are opting for a natural alternative to increase their collagen and elastin.

Using PDO threads as a support structure for your face and body, it can stimulate collagen production to create subtle volume, support areas that are showing visible signs of ageing, improving fine lines, skin laxity and contour areas of the face.

Small Area

from \$450

Smile lines, Marionette, Jowls, Temples

Large Area

from \$880

Jawline, Sides of face or angle of jaw, Neck
Décolletage

Double screw

from \$600

Under the chin/submental fat, Temples, Brows
Contouring cheeks

PDO NOSE THREADLIFT

Non-Surgical Nose enhancement

\$1200

PDO Nose ThreadLift is a popular safe non-surgical way of enhancing the shape of the nose and improving its contours, without any surgery. Compared to traditional rhinoplasty involving surgery and incisions, this procedure is non-surgical, minimally invasive with low downtime.

PDO BROW THREADLIFT

Non-Surgical brow lift

\$1200

A PDO thread lift is a procedure that uses dissolvable sutures to rejuvenate and lift sagging skin. It's a cheaper and faster alternative to facelift surgery, but the results don't last as long and aren't as dramatic. Recovery from the procedure is minimal and it's often possible to return to work the same day.

truSculpt®iD

Fat reduction

24% Fat Reduction

FDA approved. Patients get an average of 24 % increase in muscle.

Fast Treatment

Only one 15-minute session is required to get rid of stubborn fat deposits

No Downtime

Unlike cosmetic procedures like plastic surgery there is zero downtime.

Easy

No prep, diet, exercise or post-treatment therapy required.

Painlessly and permanently eliminates fat cells in those stubborn area around the abdomen and flank. It reduces circumference of the treated area by an average of 24% in one session.

Monopolar RF Technology that treats the entire fat layer of areas of concerns around the abdominal, love handles, bra fat, arms, thighs and under the chin.

It offers unique handpiece that is suitable for anyone and can treat areas in 15mins with seamless with zero downtime. Most patients say the procedure feels like a hot stone massage.

Many see results as early as six weeks and continue to see improvement up to 12 weeks. The reason why this treatment is superior to other non-invasive contouring devices is that it is truly customizable to the patients' needs and can treat multiple areas with zero downtime.
